

Wishes survived

I walk alone I'm trin' to find another world another time
Sometime I run away outside to scream your name to dry my cry
I'm lookin' for your way now to see again your lovely eyes
Rememberin' the days we run within the wind in the sun

BRIDGE

Cause I burn for you please come back (come back)
To take you away in my other land (my land)
I would break for you every laws (you know)
And I'll say (I'll say) to you my love

RIT

But I'll follow my direction
Cause now my wishes survive in me
My rivers of tears are now break out free (break out)
But I'll follow my emotion
Cause you in me survive 'n' please
Come back to me I'll dare everything

Day by day my walk ain't going to stop to get one's breath he must go on
Baby I'm surrounded of your soul now you're wanted by my heart
Never 'n' never I'll see again all the darkness in myself
Cause you will be the sunshine in me all the power into me

BRIDGE

Cause I burn for you please come back (come back)
To take you away in my other land (my land)
I would break for you every laws (you know)
And I'll say (I'll say) to you my love

RIT

But I'll follow my direction
Cause now my wishes survive in me
My rivers of tears are now break out free (break out)
But I'll follow my emotion
Cause you in me survive 'n' please
Come back to me I'll dare everything
